

THE BEST 50 FREE, BEAUTIFUL, USEFUL WEBSITES

Tap any name to open it.

PRIVACY AND SECURITY

01 **haveibeenpwned.com**

Type your email, see every breach it's been in.

02 **justdeleteme.xyz**

Direct links to delete your account from sites that hide the option.

03 **tosdr.org**

Grades every site's terms of service A to E so you don't have to read them.

04 **10minutemail.com**

A throwaway inbox that self-destructs in ten minutes.

05 **privnote.com**

Send a note that deletes itself after it's read once.

06 **virustotal.com**

Drop in any file or link and 70 antivirus engines scan it.

CREATE AND EDIT

07 **photopea.com**

Photoshop in a browser tab. Opens PSDs. No account.

08 **remove.bg**

Paste an image, background gone in three seconds.

09 **excalidraw.com**

Hand-drawn-style whiteboard, multiplayer, no sign-up.

10 **squoosh.app**

Shrink any image without wrecking it, processed on your device.

11 **tinywow.com**

250 free tools for PDFs, images and video. No limits, no sign-up.

12 **coolors.co**

Hit space and it generates a color palette until you find one you love.

13 **pexels.com**

Free stock photos and video, no attribution needed.

- 14 **vocalremover.org**
Split any song into vocals and instrumental.
-

AI YOU'LL ACTUALLY USE

- 15 **notebooklm.google.com**
Upload anything and it turns it into a podcast or answers questions about it.
-
- 16 **suno.com**
Type a prompt, get a full song with vocals.
-
- 17 **huggingface.co/spaces**
Thousands of free AI demos running in your browser.
-

LEARN

- 18 **wolframalpha.com**
The calculator that answers questions, not just equations.
-

19 **desmos.com**

The graphing calculator that made the TI obsolete.

20 **ocw.mit.edu**

MIT's actual courses. Free. No registration.

21 **gutenberg.org**

75,000 free books.

22 **deepl.com**

The translator that reads like a human wrote it.

23 **youglish.com**

Hear any word pronounced by real people in YouTube clips.

24 **monkeytype.com**

The typing test everyone gets addicted to.

EVERYDAY UTILITIES

- 25

alternativeto.net
Search any paid software, find every free replacement.

- 26

web.archive.org
See what any website looked like in 2009.

- 27

fast.com
Netflix's one-click speed test. No ads.

- 28

downdetector.com
Is it down for everyone, or just you.

- 29

camelcamelcamel.com
The real price history of anything on Amazon.

- 30

wormhole.app
Send files up to 10 GB, encrypted, link expires.

- 31

mynoise.net
Ambient sound generators for focus and sleep, obsessively tuned.

GAMING

32 **pcpartpicker.com**
Plan a PC build and it checks every part fits.

33 **howlongtobeat.com**
How many hours any game actually takes.

34 **isthereanydeal.com**
Every PC game's price across every store.

MAPS AND THE REAL WORLD

35 **radio.garden**
Click any city on Earth, hear its live radio.

36 **earth.nullschool.net**
A live animated globe of the planet's winds and currents.

37 **thetruesize.com**
Drag countries around the map and find out you've been lied to.

38 **flightradar24.com**
Every plane in the sky right now.

39 **mapcrunch.com**
Get dropped somewhere random on Street View.

40 **stellarium-web.org**
A planetarium for wherever you're standing.

41 **science.nasa.gov/eyes**
Fly around NASA's live 3D solar system.

RABBIT HOLES

42 **neal.fun**
One developer, 35 free experiments. You will lose an hour.

43 **histography.io**
Every Wikipedia event from the Big Bang to now on one timeline.

44 **scaleofuniverse.com**
Zoom from a quark to the observable universe.

45 **lightyear.fm**

Scroll away from Earth and hear which songs have reached each star.

46 **windows93.net**

A fake operating system full of weird games.

47 **zoomquilt.org**

A painting that zooms forever.

48 **quickdraw.withgoogle.com**

Doodle in 20 seconds. A neural net guesses what it is.

49 **pointerpointer.com**

Finds a photo of someone pointing at your cursor.

50 **theuselessweb.com**

One button. A random pointless website.
